

Cafeteria Table Cleaning & Sanitizing

Cafeteria Dining Tables require proper cleaning for the health of students and the general appearance of the dining facility. Effective cleaning will reduce the potential spread of harmful organisms to students while eating.

It is important that individuals charged with cleaning these surfaces follow a thorough protocol. At no time are any SFSPac materials recommended for use by children.

Attached are two-detailed methods for cleaning tables.

1. **“Sanitizing tables while students dine.”** This process uses an E.P.A. registered, diluted Quaternary Sanitizer provided by the Food Services Department. The Sanitizer, SFS 17, is clear in dilution, and stored in prepared in properly labeled buckets.

This process is designed for wiping up spills only. The solution is to prevent “cross-contamination” from one surface to another.

2. **“Disinfecting tables before and after dining periods.”** To ensure the tables are fully disinfected and cleaned, use SFS20 Germicidal Detergent provided by food services. This chemical is used in a Properly labeled spray-bottle and is Red/Pink in dilution. The process outlined ensures adequate disinfection combined with a detergent to remove soils.
- **DO NOT use Spray Germicidal Detergent during dining periods, or when students are present. Only the Sanitizer buckets with wiping clothes should be used for wipe-up during breakfast and lunch periods.**
 - **Germicidal Detergent is to be used in the approved spray bottle ONLY.**
 - All staff should wear or Personal Protective Equipment as outlined while cleaning.
 - M.S.D.S. are located in the kitchen in the SFSPac Procedure and Reference Manual and are color matched as closely as possible to the color of the product.
 - All employees, aids, and volunteers should be trained on these applications, location of Material Safety Data Sheets, and labeling of container.
 - Chemicals must only be stored in their color-matched properly labeled container. If more are needed, please inform Cafeteria staff. Your SFSPac Representative will furnish additional dispensers as needed.
